

CRITICAL POWER SOLUTIONS

# 9900AEGIS

RELIABLE POWER FOR ENTERPRISE

The 9900AEGIS is the smallest in the popular 9900 Series. Achieve 9900 Series reliability for small to medium size enterprise data centers, communications, manufacturing and medical equipment.

Available in 80, 100, 150, 160 and 225 kVA

## 99.9995%

*Equipment reliability*

While competitors simply estimate their reliability, Mitsubishi Electric's documented base of 9900 Series UPS have sustained a load carrying capacity 99.9995% of their operational history.

## HIGH EFFICIENCY

*Across all load levels*

Mitsubishi Electric's superior expertise in optimizing power device control is evident not only by the flatness of the resulting efficiency curve, but also by garnering the coveted Energy Star® award for efficiency.

AC/AC EFFICIENCY CURVES

Load %	80 kVA	100 kVA	150 kVA	160 kVA	225 kVA
25%	93.4%	94.2%	94.9%	95.1%	95.7%
50%	95.6%	96.1%	96.3%	96.3%	96.8%
75%	96.4%	96.3%	96.6%	96.5%	96.9%
100%	96.6%	96.8%	96.5%	96.4%	96.8%

## PERFORMANCE

*Guarantee*

The AC/AC efficiency of the 9900 Series UPS modules as supplied will not be less than 1% below the specified efficiency published in the Mitsubishi Electric factory specification.

## LOW MAINTENANCE

*Consistent quality*

Designed with not only reliability, but also maintenance in mind, the various system components of the 9900AEGIS UPS minimize or help ease system maintenance. Low-effort accessible upkeep systems ensure consistent quality operation for the lifetime of the system.

Below are a few features that make the 9900AEGIS easy to maintain:

- 1 High quality industrial grade fans to provide longer life and enhanced dependability
- 2 15 year capacitor life for increased reliability and decreased maintenance costs
- 3 Front access for ease of maintenance and decreased downtime
- 4 Static switch with wrap around contactor for increased reliability and added redundancy

## VERSATILITY

### Wide range of applications

The 9900AEGIS is ideal for backing up the critical applications of data centers, emergency lighting systems, and medical equipment across [various markets](#).

#### APPLICATION

*Data Centers  
Edge Data Centers*

#### MARKETS

*Cloud Computing & Colocation  
Content Delivery & Media  
Hospital & Healthcare*

This UPS is well-suited for delivering backup power to regional edge (small colocations) or network edge data centers that are dependent on a continual source of reliable power

#### APPLICATION

*Emergency Lighting*

#### MARKETS

*All Markets*

The 80 and 100kVA sizes of the 9900AEGIS are UL 924 listed, making them the UPS models of choice for backing up emergency lighting systems.

#### APPLICATION

*Medical Equipment*

#### MARKETS

*Hospital & Healthcare*

100% step load can be performed without batteries, seamlessly supporting significant amperage spike or equipment start up. This system can smooth out voltage fluctuations to deliver clean power to sensitive diagnostic equipment and ensure equipment stays up and running in an emergency.

## COMPATIBLE BATTERY POWER

*For a 80-225kVA UPS*

For a deeper dive into all possible solutions, review our [UPS Batteries & DC Power Storage Solutions](#).

## SERVICE SOLUTIONS

Mitsubishi Electric's highly reliable and efficient products are backed by a full range of Field and Factory Services.

#### *Factory Testing & Startup*

Every UPS is tested prior to shipment with customized in-person or virtual factory witness tests available. Certified technicians perform startup and commissioning.

#### *24/7 Customer Support*

Highly-skilled representatives are available to troubleshoot by phone, and if necessary, can quickly dispatch a certified technician to your site. Call 1-800-887-7830, option 1.

#### *Maintenance & Repairs*

Mitsubishi Electric offers a variety of customized maintenance solutions and comprehensive services to troubleshoot, diagnose, and repair system irregularities.

#### *Batteries & Battery Services*

As batteries are the leading cause of UPS failure, Mitsubishi Electric offers a wide range of maintenance, monitoring, and replacement services to keep your batteries fully operational.
